### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art is considered to be Sato (JP 11-329734), which teaches white light emitting devices comprising a hole transport layer, a light emitting layer, a hole blocking layer, an anode and a cathode. The light emitting material includes an aromatic amine and a blue light emitting compound perylene. Independent claim 1 requires a fluoranthene or pentacene compound be present in the light emitting material and Sato does not disclose these compounds. Accordingly, claims 1-4, 6-9, and 11-30 are allowed.
2. The terminal disclaimer filed on December 3, 2003 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of US Serial Number 10/403,015, has been reviewed and is accepted. The terminal disclaimer has been recorded.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dawn Garrett whose telephone number is (703) 305-0788. The examiner can normally be reached Monday through Friday.
